

INTERNATIONAL PICTURE CONTEST

The pictures in the calendar have been provided by an international picture contest in spring 2010. Twelve of overall more than 180 pictures have been chosen to appear in this calendar. These winners of the picture contest split up a total prize money of 3000 € and will be awarded at the EuCheMS congress in Nürnberg, Germany.

CALENDAR DETAILS

Format (w x h):

50 x 35 cm

Price:

10 € per piece

Pre-order deadline:

30. September 2010
*later orders will be
available at the GDCh
shop (www.gdch.de)*

Shipping:

November 2010

Delivery costs:

4,50 € (Germany)
9,00 € (Europe)
*other countries
depending on location*

Price and delivery costs include VAT.

Everything is chemistry - Calendar

THE IDEA

We offer you a calendar for 2011, the international year of chemistry (IYC). The pictures in this calendar represent the different aspects of chemistry and they have been provided by an international picture contest. This matches with the goals of IYC to increase the public appreciation of chemistry and to enhance the international cooperation. These kind of international cooperation celebrates its 100th anniversary of the founding of the International Association of Chemical Societies in 2011.

With ordering this calendar you will support the following supporting organizations in bringing chemistry to the public and to show that everything is chemistry. The benefit will help to finance e.g. talks and workshops about chemistry in life, organized by us in the IYC 2011. And these events are not intended only for chemists but also for the whole population across Europe.

THE ORGANIZERS

EYCN

The European Young Chemist Network EYCN is the younger members division of the European Association for Chemical and Molecular Sciences (EuChMS). Every chemist under 35 within the EuChMS framework is part of EYCN.

JCF

The JungChemikerForum JCF is the younger member division of the German Chemical Society GDCh. Over 6000 young scientist (under 35 years) belong to the JCF, which is therefore the largest young chemistry society in Europe.

VCW

The VCW is a section of the German Chemical Society, which is in the meeting place of Chemistry and Economy. It is a discussion place for all chemical-economical questions and a vital organization for people working between chemistry and economy.

ORDERING

Name	Prenome
(Company)	
(Department)	
Street	City
ZIP Code	
Country	

I want to order calendars for the international year of Chemistry with a price of 10 € per piece (including taxes). Delivery costs are at least 4.50 €, depending on amount and country

date, city
